Vega Force Company, founded in 2004, established by three dreamers whom obsess about guns. VFC founders believed that guns are true "Works of Art". VFC uses its expertise to produce highly realistic Airsoft replica with custom grade performance of internal mechanical design, which allows VFC users having better shooting and operating experience.

Furthermore, by taking strong and refined surface finishing, all of VFC's Airsoft products are achieved the standard of collection grade. For example, the VR16 series is one of the most unique products in VFC. It was been distributed around the world, earned a good market response by its reliability and great appearance. Combined with high-end technology and excellent quality control, VR16 is able to achieve the need from first-class Airsoft customers. "To meet collector's desire and accept operator's needed" is the philosophy of VFC's products.

Consider reputation is the most important asset, VFC has diligently earned the trusted not only from users, but also from distributors and license holders around the world. With OEM experience for more than a decade, VFC has built a professional team that specialized in designing and developing quality Airsoft products. Recently, in order to stay in the cutting edge market, VFC devotes itself into developing gas blow back (GBB) airsoft operating system with the same concept: highly realistic on operating and surface finishing, and hope costumers will gain a whole new experience and happiness by VFC's new products.

TOY GUN AND ACCESSORIES

It is said that detail makes perfect. VFC sincerely follows it and makes every detail count, also delicate ourselves to achieve an extraordinary products with all the detail composing. Thus, it's not only a BB shower machine, but also the duplication of gunsmith's craftsmanship.

From a screw to an assembly complete, VFC concentrates on every parts, make them in reasonable price and can keep the high quality craftsmanship, the most important of all, it's also provides a decent mechanical performance with any appropriate Airsoft power source, firing pellets is a necessarily issue on Airsoft, as a company composed by many senior players with professional engineers, it's simply one of the VFC's motto triangle, performance, craftsmanship, and experience.

CUSTOM SERVICE

VFC welcomes all kind of custom service. Distributors can build whatever you like with VFC's creed, the motto triangle, performance, craftsmanship, and experience.

There also are outstanding engineer teams to consult you the solution of mechanism and material; sales team would help you to build entire sales network; PM personnel will provide marketing assistance, and experience consulting.

The entire VFC team can serve you from manufacturing to handing your products to your end users. This service runs for years, we are also learning and remaking process better and better, will team VFC would have the opportunity to serve you.

A GUN FIGHTER TRAINING PLATFORM - FIREARMS IMULATOR

Introduce to an alternative training solution with low cost but high simulation. It may not be proposed only once, training with Airsoft in recent years. It's due to the facts that it costs much lower than any other power source training platforms, and it also provides the most important factor in training, SAFETY. VFC is earned a worldwide reputation in Airsoft Industry, due to our product's the durability of performance and highly realistic exterior design. These factors make the advantages of been a training weapon for the professional personnel and skilled enthusiasts, especially in quick response and weapon pointing course.

This training system is based on VFC's products and upgraded by training environment and weapon tactics. It would not easily harm the entrants but also can identify hit and be hit easily in any simulation. They are also strong enough for any harsh operating. Easy maintenance and low cost on consumables are also a advantage for it.

DEM / ODM SERVICE

The good quality, reasonably price are well-reputed by worldwide airsoft enthusiasts, license holders and major distributors. VFC is also a reliable partner for you to achieve business success. What VFC relies is the crews of profession with passion, and the ability of quick response and well communication, which feeds every demands with the best solutions. Well communication, professional knowledge, and excellent service are the three features of VFC ODM service. That's why people say

Avalon

THE WEAPONS WORKS

AVALON PREMIUM SERIES

AVALON Series – the most cutting-edge product series in VFC. Its name comes from the island with Eternal and Heroic spirit of King Arthur Legend, the birthplace of Excalibur! Which represents that VFC attempts to create the highest quality AEG series for top Airsoft players in worldwide. The AVALON Series has Built-in VFC Quick Response System accessories allow you to adjust the rifle fits your shooting touch, and comes with Crusader Tech tactical accessories which are friendly for lefty with rapid application. Also it has many types of popularity rail system with ample room for all sorts of sights and accessories. The Internal of AVALON includes new ECS gearbox and strong magnetic electric motor to let your AEG more powerful.

The MOSFET electronic control unit is inside for faster trigger response. Apart from this, AVALON has match grade hop rubber, precision inner barrel and CNC machined nozzle inside, which allows AVALON has better precision shooting level. All of details and design are amazing. This series will be your best choice of AEG.

MONSTER SERIES

"Monster" is the wildest series of AVALON! Just like it lives up to its name, the most eye-catching feature is the Monster K-mod Rail (MKR) system, it makes your weapon look mighty and awesome. The internal includes all the AVALON-grade parts in it, also, "Monster" attached the new design Quick Response Pop-up Retractable Stock, it allows you to respond faster and more sensitive in the battlefield. Let "Monster" series transform you to become an unstoppable beast and rip your enemies!
